Wireless – OS X 10.5 - Leopard Set Up Instructions

With Airport on, select "Join Other Network" – not KCADNet – from the drop down Airport menu.

Select "KCADNet" as the network name or type it in the box.
Select "WPA Enterprise" in the Wireless Security drop down menu. Skip down and select “Automatic” in the 802.1X Configuration drop down menu THEN enter your MyFSU user name and password and click “OK.”

At the Verify Certificate screen, click on “Show Certificate.”
Then check the box next to “Always trust these certificates” option. Next click on the gray triangle next to “Trust Settings.”

“Continue.” Authentication could take a few minutes.
