Select "Other" – not KCADNet – from the drop down Airport menu.

Select "KCADNet" as the network name or type it in the box.
Select "WPA Enterprise" in the Wireless Security drop down menu. Enter your MyFSU user name and password. Select “Automatic” in the 802.1X Configuration drop down menu and click “OK.”

At the Verify Certificate screen, click on “Show Certificate.”
Then check the box near “Always trust these certificates” option and click “Continue.”
